

08:45-09:15	Timing and drivers of Adria's independent motion: where do we stand? Eline Le Breton	S1	Plenary Lecture
09:15-09:30	New map, new insights: disentangling the Tauern Window's Matrei Zone Chiara Költringer , Benjamin Huet, Manfred Linner, and Michael Lotter	S1	
09:30-09:45	Bringing pre-orogenic salt and rifts into the picture: What can we learn about the Eastern Alps and Western Carpathians? Szilvia Kövér , Oscar Fernandez, László Fodor, Tomáš Potočný, Lajos Ádám Csicsek, Hugo Ortner, Diethard Sanders, Marína Molčan-Matejová, Dušan Plašienka, Stanisław Mazur, Tanishka Soni, Mark G. Rowan, Josep Anton Muñoz, Gianreto Manatschal, and Bernhard Grasemann	S1	
09:45-10:00	New petrological and geochronological constraints on the Koralpe–Sausalpe–Pohorje Complex (Eastern Alps) Iris Wannhoff, Jan Pleuger , Xin Zhong, Timm John, Leo J. Millonig, Ralf Schuster, Axel Gerdes, and Richard Albert	S1	
10:00-10:15	The East Tauern Detachment System and its role in the Oligo-Miocene exhumation of the Tauern Window David Schneider , Jennifer Spalding, Benjamin Huet, and Bernhard Grasemann	S1	
10:15-10:30	Tectonic mélanges formed of continental rocks in the Tauern Window Benjamin Huet , Chiara Költringer, Alessia Tagliaferri, and Anna Rogowitz	S1	
10:30-10:45	Paleomagnetic evidence from Permian-Cretaceous sediments of Nurra (NW Sardinia) show a post-Eocene 90° CCW rotation of Sardinia-South Corsica and Permian 30° CW rotation of Nurra (NW Sardinia) Gaia Siravo , Fabio Speranza, and Giacomo Oggiano	S1	
10:45-11:00	COFFEE BREAK		
11:15-11:45	Reading Deep Mantle Processes from Sedimentary Basins Attila Balázs	S1	Plenary Lecture
11:45-12:00	Slab tearing and its signals in foreland basins controlled by passive margin strength Giridas Maiti , Nevena Andrić-Tomašević, Attila Balázs, Lucas H. J. Eskens, and Taras Gerya	S1	
12:00-12:15	Decoding ophiolite settings through primary lithological contacts: the case-study of the North Calabria Unit (Southern Apennines, Italy) Gianluca Frasca , Gianreto Manatschal, Giacomo Prosser, Daniela Rubatto, Marc Ulrich, Luca Barale, Nadia Curetti, and Roberto Compagnoni	S5	
12:15-12:30	Zircon provenance and Hf isotope constraints on the Pre-Alpine evolution of the Balkan terrains: from Peri-Gondwanan accretion to Tethyan rifting Dejan Prelević , Kristijan Sokol, Jin-Cheng Xie, Ana Mladenović, and Vladica Cvetković	S5	
12:30-12:45	The fate of the subcontinental mantle in Alpine-type rift inversion orogens and its significance for natural H2 exploration Gianreto Manatschal , Francesca Dimasi, Quentin Gasser, Caroline Blin, Pauline Chenin, Marc Ulrich, Gianluca Frasca, Nick Kuszniir, Frank Zwaan, Cuimei Zhang, Eric C. Gaucher, Peter Alt-Epping, Samuel Pierre, Maxime Ducoux, and Emmanuel Masini	S5	
12:45-13:00	Filament microfacies at the onset of the Toarcian Oceanic Anoxic Event Adam Tomašových , Labhib Boudchiche, Tamás Müller, Driss Sadki, and Jan Schlögl	S5	
13:00-14:30	LUNCH		
14:30-15:00	Triassic intraplate basins versus Middle-Late Jurassic mélanges and nappes in the Western Tethys Realm: Renaissance of Mojsisovics? or “What is written in the sedimentary successions?” Hans-Jürgen Gawlick	S6	Plenary Lecture
15:00-15:15	High-resolution calpionellid morphometry: A new perspective on the dynamics and timing of bioevents at the Tithonian–Berriasian boundary Diana Ölvéczká and Adam Tomašových	S6	
15:15-15:30	Origin and evolution of the Paleocene-Eocene chaotic facies from the Western Ligurian Flysch (Ligurian Alps, Italy) Simone Lombardi , Stori Lorenzo, Mueller Pierre, Bonazzi Mattia, Cobianchi Miriam, Federico Laura, Crispini Laura, Seno Silvio, and Maino Matteo	S6	
15:30-15:45	More Than Just Age: Geochemical signatures of radiolarites from the Internal Western Carpathians Marína Molčan Matejová , Tomáš Potočný, and Dušan Plašienka	S8	

15:45-16:00	Biostratigraphy, chemostratigraphy, and facies evolution of the easternmost Alpine Atlantic realm (Southern Carpathians, eastern Serbia) Nevenka Djeric , Renata Jach, Špela Goričan, Daniela Reháková, Alfred Uchman, Hans-Jürgen Gawlick, Ján Schlögl, and Uros Stojadinovic	S8	
16:00-16:30	COFFEE BREAK		
16:30-16:45	Mesozoic evolution of the eastern Adriatic continental margin preserved in the Internal Dinarides – a radiolarian perspective Duje Kukoč , Špela Goričan, Matija Vukovski, Duje Smirčić, and Damir Slovenec	S8	Invited
16:45-17:00	Jurassic and Cretaceous radiolarian age constraints for the Mesozoic evolution of the Tethyan realm in the Lesser Caucasus ; new data from Armenia Taniel Danelian , Virgile Turakiewicz, Ghazar Galoyan, and Monique Seyler	S8	
17:00-17:15	Radiolarian biostratigraphic correlation around the Jurassic–Cretaceous boundary between the Alpine Tethys and the Pacific Atsushi Matsuoka , Xin Li, Angela Bertinelli, and Marco Chiari	S8	
17:15-17:30	Radiolarian response to the Jurassic-Cretaceous transition: Pangea breakup and the end of the Tethyan mega-monsoon Peter O. Baumgartner , Xin Li, Matsuoka Atsushi, O'Dogherty Luis, and Goričan Špela	S8	
17:30-19:00	POSTER SESSION		
19:00			
19:15			
19:30			
19:45			
20:00	CONFERENCE DINNER
